Co-funded by the
Erasmus+ Programme
of the European Union

Aims:

- to increase the entrepreneurial skills and competences of young agriculture and farming VET students by provision of dedicated blended virtual internship programme;
- to develop highly skilled and qualified workforce among youth generation in the agriculture sector;
- to deliver tangible and sustainable outcomes in establishing a model for blended virtual internships, guidance material for its conducting, assessment standard of its efficiency and mobile solution for conducting the virtual part of the blended model which will ensure better transparency, comparability and recognition of the acquired knowledge, skills and competence of young VET students.

What will we develop?

- **IO1:** Guide for conducting blended virtual internships for the acquisition and validation of entrepreneurial and business skills in agriculture and eco-farming sectors
- **IO2:** Assessment standard for the validation and recognition of the acquired knowledge, skills and competences related to business and entrepreneurship during blended virtual internships in the agriculture and eco-farming sectors
- **IO3:** Mobile application to conduct blended virtual internships in the domains of business and entrepreneurship
